Professional Summary

Software Engineer and B.Tech CSE (AI & ML) undergraduate with hands-on experience building scalable, production-ready web applications using Java, Spring Boot, React.js, MySQL, and RESTful APIs. Strong fundamentals in Data Structures & Algorithms, OOP, DBMS, Operating Systems, and Computer Networks, backed by 180+ problems solved on LeetCode. Debugs complex issues, writes clean, maintainable code, and collaborates effectively within Agile/Scrum teams.

Technical Skills

Languages: Java, Python, JavaScript (ES6+), SQL

Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, System Design Fundamentals

Full Stack Development: Spring Boot, Spring MVC, REST APIs, JWT Authentication, React.js, HTML5, CSS3

Databases: MySQL, MongoDB

AI & ML: Machine Learning Fundamentals, Neural Networks, NLP, RAG, OCR

Tools & Practices: Git, GitHub, Postman, VS Code, Agile/Scrum, Debugging, Unit Testing, Clean Code

Experience

Full Stack Developer – Avijo Health Startup

[\[Certificate\]](#) Mar 2026 – July 2026

Part-Time (Stipend-Based)

- Engineered and tested user-facing features for the Avijo Expert Healthcare Platform using React.js, Spring Boot, and MySQL, collaborating with a cross-functional team under Agile/Scrum practices.
- Validated REST API endpoints using Postman and documented defects, improving application stability and reducing issues ahead of production releases.

React JS Developer – UpToSkills

[\[GitHub\]](#) Jan 2026 – Apr 2026

- Developed the User and Admin modules of an AI Resume Builder application in React.js, building reusable, responsive components to support a scalable front-end architecture.
- Integrated REST APIs with backend services and resolved UI and functional defects through a GitHub-based code review and version control workflow.

Java Full Stack Developer Intern – ByteXL

[\[Certificate\]](#) Apr 2025 – Jun 2025

- Built full-stack modules using Java, Spring Boot, React.js, and MySQL, implementing secure REST APIs with JWT-based authentication and role-based access control.
- Debugged and refactored application code to improve performance, readability, and maintainability across full-stack modules.

Projects

Smart Student Hub – College Management System

[\[Live Demo\]](#) Spring Boot — React.js — MySQL — OCR

- Architected a multi-role (Student, Faculty, Administrator) platform with a RESTful API layer to centralize student information and academic services.
- Implemented OCR-based certificate verification and JWT-secured authentication, automating document validation and eliminating manual verification effort.

Exam Evaluation Explainer Bot

[\[GitHub\]](#) Python — Streamlit — RAG — LangChain — NLP

- Designed a Retrieval-Augmented Generation (RAG) pipeline with LangChain and NLP to answer university exam-regulation queries directly from official PDF documents.
- Built PDF ingestion, text chunking, vector embedding, and semantic search components behind an interactive Streamlit interface for real-time query resolution.

Education

B.Tech in Computer Science (AI & ML), GMRIT (Deemed to be University)

2024 – 2027 — CGPA: 8.4

Diploma in Computer Science & Engineering, Diviseema Polytechnic College

2021 – 2024 — CGPA: 8.8

SSC (Class X), Z.P. High School, Bonthalakoduru

2016 – 2021 — 98%

Achievements

- ByteXL Code-Thon – Winner:** Secured 1st Place in the ByteXL Code-Thon by developing an innovative software solution and demonstrating strong problem-solving, teamwork, and full-stack development skills under a competitive environment.
- GDSC Web Coordinator, GMRIT (Deemed to be University):** Led web development workshops and mentored students in full-stack development practices.
- LeetCode:** Solved 180+ Data Structures & Algorithms problems spanning arrays, strings, trees, graphs, and dynamic programming, strengthening problem-solving speed for technical assessments.

Certifications

- Java Programming – Infosys Springboard [\[View\]](#)
- React JS Development – GeeksforGeeks [\[View\]](#)
- Spring Boot – Scaler [\[View\]](#)
- Introduction to Generative AI – Google Cloud (Coursera) [\[View\]](#)
- AI Skills Passport – EY & Microsoft [\[View\]](#)
- Python Programming – Cisco Networking Academy [\[View\]](#)
